Book Review Index—Volume 71

Berry, B.J.L., *Smart Mobs. The Next Social Revolution,* (Howard Rheingold), 651
Coates, J.F., *Megaprojects and Risk: An Anatomy of Ambition* (Bent Flyvbjerg, Nils Bruzeluis and Werner Rothengatter), 537
Corning, P.A., *From Complexity to Life: On the Emergence of Life and Meaning* (Niels Henrik Gregersen), 765
Devezas, T.C., *Nature's Magic. Synergy in Evolution and the Fate of Humankind* (Peter Corning), 653
Koh, W.T.H., *Knowledge, Inequality and Growth in The New Economy,* (Richard Nahuis), 977
Linstone, H., *Futures research methodology—Version 2.0* (Jerome C. Glenn and Theodore J. Gordon), 309
Linstone, H.A., *Shaping the Next One Hundred Years: New Methods for Quantitative, Long-Term Policy Analysis* (R.J. Lempert), 305
Martino, J.P., *Envisioning the Future: Science Fiction and the Next Millennium* (Marleen S. Barr), 423
Molitor, G.T.T., *Agricultural Policy for the 21st Century* (L. Tweeten and S.R. Thompson), 543
Sharma, K., *Ian Wilson, The Subtle Art of Strategy: Organizational Planning in Uncertain Times,* (Praeger Publishers), 979
Umali, C.L., *Terrorism, Radicalism and Populism in Agriculture* (Luther Tweeten), 661

Subject Index—Volume 71

Acquirer, becoming acquired and becoming an, 71:635
Adoption life cycle, understanding the dynamics of high-tech markets, 71:667
Aircraft manufacturing industry, strategic alliances and internationalism, 71:443
Argumentative inquiry, for sourcing forecast knowledge, 71:525
Automotive propulsion, analysis of R&D portfolios, variety, competition and policy implications, 71:485

Canon's scenario for sustainable growth, technological diversification and assimilation of spillover technology, 71:941
Categories of innovation, measurement of modularization and new business model, 71:623
Cellular automata modeling, resistance to innovations, effects and solutions, 71:425
Comparison of software exports, the role of export-driven entrepreneurship in economic development, economies of India, China and Taiwan, 71:799
Competitive innovations, substitution orbit model of, 71:365

Decision debacles, averting of, 71:239
Development pattern, investigation in India, 71:777
Diffusion, wireless communications in Finland, analysis of the effect of the economic situation on modeling and forecasting of, 71:391
Digital economy, where do we stand? 71:315
Disruptive process technologies, determination of demand, supply and pricing for emerging markets, based on, 71:105
Disruptive technical threats, roadmapping of, in complex, technology-based subsystems, 71:121
Disruptive technology,
roadmaps, 71:141
roadmapping in emerging microsystems and top-down nanosystems, 71:161
Domestic technologies, analysis of the role of government in India, institutional support for investment in, 71:855

Economic development,
and information technology services, the Indian experience, 71:771
the role of export-driven entrepreneurship, comparison of software exports from India, China and Taiwan, 71:799
Emergent foresight processes, industrial activities in wireless communications, 71:897
Emerging markets, demand, supply and pricing based on disruptive process technologies, 71:105
European target for R&D expenditure, will Italy attain it? 71:509
Expert-driven entrepreneurship, in economic development, comparison of software exports from India, China and Taiwan, 71:799
Extinct innovations, inevitably reborn: the reawakening of, 71:881

Finland, analysis of the effect of the economic situation on modeling and forecasting the diffusion of wireless communications, 71:391
Forecast knowledge, argumentative inquiry approach for sourcing, 71:525
From my perspective: information age to molecular age, 71:187
let us ration more rationally, 71:723
free trade agreements, intellectual poverty of, trading down, 71:865
"smart machines", as philosopher kings, 71:877
trading down, intellectual poverty of the new free trade agreements, 71:865
economic activities likely to dominate the new millennium, VI. New Space Age, 71:961
New Space Age; five economic activities likely to dominate the new millennium, 71:961
Future issues, science and technology, 71:405

Globalization, of TFSC, editorial, 71:665
Government IT policy, making a technopolis in Hyderabad, India, 71:823

High-tech markets, technology adoption life cycle attractor, understanding dynamics of, 71:667

India's IT industry, and U.S. immigration regulations, 71:837
Industrial strategy development, challenge of integrating technology foresight and assessment in, 71:579
Information technology services, and economic development, the Indian experience, 71:771
Infrastructure, for innovation, technology roadmaps, 71:67
Innovation diffusion model, study of population heterogeneity using the simulated annealing (SA) framework, 71:705
Innovation, infrastructure and technology roadmaps, 71:67
Innovation, rethinking technology policy and, 71:549
Institutional elasticity, as a significant driver of IT functionality development, 71:723
Integrated management model, and roadmapping, joint application of, 71:27
Italy, attainment of European target for R&D expenditure? 71:509

IT functionality, institutional elasticity as a critical factor in, 71:723
IT, radiology and the emergence of the teleradiology model, 71:267

Knowledge dynamics, in a network industry, 71:469

Logistic growth model, inaccurate forecasts for Nobel Prizes, 71:417

Microsystems, and top-down nanosystems, roadmapping disruptive technology, 71:161
Molecular age, from information age to, 71:187
Multinational corporations, international research strategies, a German perspective, 71:599

Nanosystems, and emerging microsystems, roadmapping disruptive technology, 71:161
Network industry, knowledge dynamics, 71:469
New product development, technology roadmapping as a tool for making sustainable decisions, 71:81
Nobel Prizes, inaccurate forecasts of the logistic growth model, 71:417

Over-optimism, amongst experts in assessment and foresight, 71:341

Population heterogeneity, studied in an innovation diffusion model, based on simulated annealing, 71:705
Public to market support, the "swing of the pendulum" for science and technology, 71:553

Radiology, transforming its workplace, and its marriage with the digital world of IT and the internet, 71:267
Reawakening, of extinct innovations, 71:881
Research strategies, a German perspective in multinational corporations, 71:599
Resistance to innovations, cellular automata modeling of, effects and solutions, 71:425
Roadmapping,
sustainable to disruptive technologies, 71:1
joint application with roadmapping, 71:27
a practitioner's update, 71:101
disruptive technical threats in complex, technology-based subsystems using the SAILS methodology, 71:121
disruptive technology, 71:141
disruptive technology, case study in emerging microsystems and top-down nanosystems, 71:161
Role of government in India, institutional support for investment in domestic technologies, an analysis of, 71:855

SAILS methodology, application in roadmapping of disruptive technical threats and opportunities in complex, technology-based subsystems, 71:121
Scenario planning, application in exploring e-government futures, 71:217
Simulated annealing, study of population heterogeneity in innovation diffusion model, estimation based on, 71:705
Smart machines, as philosopher kings, from my perspective, 71:877
Spillover technology, and technological diversification, Canon's scenario for sustainable growth, 71:941
S&T management policy issues, global scenarios of the next two decades, 71:913
Strategic alliances, in the aircraft manufacturing industry, internationalism of, 71:443
Substitution orbit model, in competitive innovations, 71:365

Technological diversification, and assimilation of spillover technology, analyses of Canon's scenario for sustainable growth, 71:941
Technology foresight, challenge of integration with assessment in industrial strategy development and policymaking, 71:579
Technology futures analysis, toward integration of the field and new methods, 71:287
Technology policy, innovation and rethinking, 71:549
Technology roadmaps, infrastructure for innovation, 71:67
Technology roadmapping,
evolution and revolution, a planning framework, 71:5
tool for making sustainable new product development decisions, 71:81
Technopolis in Hyderabad, India, role of government IT policy, 71:823
Telecommunications, instrument of radical change for 20th and 21st centuries, 71:685
The Indian experience, information technology services and economic development, 71:771

UK foresight, systemic analysis, joint application of integrated management model and roadmapping, 71:27
U.S. immigration regulations, and India's IT industry, 71:837

Video telephone, history of and persistence of lackluster demand, 71:197

Wireless communications, emergent foresight processes, industrial activities in, 71:897
Wireless communications, Finland, analysis of the effect of the economic situation on modeling and forecasting the diffusion, 71:391

2025 global scenarios, future S&T management policy issues, 71:913
